

Rute (Cordoba), 14/03/2022

**CRUZBER stand united in solidarity with Ukraine.**

At CRUZBER, we deeply believe in and defend freedom, peace and human rights. We are totally shocked by the senseless situation unleashed in Ukraine and we stand united in solidarity with the Ukrainian people, with all those affected and with those who defend peace.

In order to be able to help and materialize our support, we are establishing extraordinary budgets with donations of 1 Euro for each order to different charity organizations such as the CRUZ ROJA, UNICEF and SAVE THE CHILDREN. In addition, we are redirecting budgets that we had established to different corporate social responsibility actions to allocate them in their entirety (10.000 Euros) to the humanitarian emergency in Ukraine.

We are working to try to equally support the neighboring countries, affected also by the tragedy and trying with all their might to help their Ukrainian neighbors. Currently CRUZBER does not maintain commercial relations or any type of operations with Russia or Belarus and it has been decided to continue like this.

All CRUZBER staff have been involved in the collaboration, bringing their own help and ideas to support the tragic situation. Ways of being able to collaborate through joint donations have been established and advice has been sought to be able to process refugee reception applications. Collection points have been established in the company's own facilities, where the staff is donating clothes, food and medicines that are sent to Ukraine through the country's consulate located in the city of Malaga.

We appreciate and are proud of the attitude and commitment of all CRUZBER personnel facing the situation and we call to action the entire society, since acting together as one team, we can change situations, even those that are as sad and tragic as the current one.

ми з тобою, Україно.  
(We are with you, Ukraine)
